

MASSACHUSETTS INSTITUTE OF TECHNOLOGY ADVANCED STUDY PROGRAM

The Advanced Study program is a one semester program offered at MIT in Cambridge, Massachusetts. The program enables engineers and scientists to broaden their perspective beyond their technical specialty through a custom program of MIT graduate-level coursework.

Who Should Attend

Outstanding mid-career executives who are technically specialized, to prepare them for more general and senior management responsibilities.

Program Highlights

- Accommodates technical managers who wish to understand developments bearing directly on their fields of expertise, who seek in-depth competence at technological frontiers and who desire to strengthen their technological base; and
- Each participant will be assigned an advisor who helps to arrange individual activities that are divided among formal classroom study, tutorial or research study and other MIT opportunities best suited to the needs of the participant and the sponsoring organization.

Offerings: One semester, twice annually
